## Mensaje de la Escuela

Hola familias de la Mesa,

La asistencia regular a la escuela es una de las formas más poderosas en que puede preparar a su hijo para el éxito, tanto en la escuela como en la vida. **Para el mes de febrero, nuestra tasa de asistencia fue de aproximadamente 92%, con 22 estudiantes en los grados TK-8 con asistencia perfecta.** Nuestra meta de tasa de asistencia para este año escolar es del 95%. Agradecimiento continuo a nuestros estudiantes y familias por hacer del aprendizaje, la participación y el compromiso una prioridad principal, mientras continúan poniendo la salud y la seguridad a la vanguardia.

### ATENCIÓN PADRES/TUTORES: ¡Aún necesitamos tu opinión!

During the month of March we will be administering the CogAT.

## What is the CogAT?

The CogAT is a cognitive abilities test that measures general, abstract reasoning ability. It measures students' abilities to apply their reasoning skills to verbal, quantitative, and non-verbal tasks. Sometimes people wonder if it is an IQ test. It is not. The CogAT measures specific areas of reasoning that have been found to be linked to school success.

## What are the results used for?

Teachers use CogAT scores to help students learn more effectively. The results from the CogAT are combined with additional data in order to understand the learning profile of a student. They are used to determine how to differentiate and modify curriculum. Students' learning needs are addressed in the classroom using high-impact differentiation strategies, and may also be addressed during site-based, targeted instructional time. ***Our school district will also use the CogAT test results to help identify academically gifted students for the GATE program.***

## Who will be assessed using the CogAT?

- **ALL THIRD** grade students
- **FOURTH--FIFTH** grade students new to our district, not previously assessed.

Please email Mrs. Waggoner with any questions [mwaggoner@mesaschool.org](mailto:mwaggoner@mesaschool.org)

Durante el mes de Marzo estaremos administrando la prueba de CogAT.

## ¿Qué es CogAT?

CogAT es una prueba de habilidades cognitivas que mide la capacidad de razonamiento general y abstracto. Mide la capacidad de los estudiantes para aplicar sus habilidades de razonamiento para las tareas verbales, cuantitativas y no verbales. A veces la gente se pregunta si se trata de una prueba de inteligencia. No lo es. La prueba de CogAT mide áreas específicas de razonamiento que se han encontrado vinculadas con el éxito escolar.

## ¿Para qué se utilizan los resultados?

Los maestros usan los resultados de CogAT para ayudar a los estudiantes a aprender más efectivamente. Los resultados de CogAT se combinan con los datos adicionales con el fin de entender el perfil de aprendizaje de un estudiante. Se utilizan para determinar cómo diferenciar y modificar planes de estudio. Necesidades de aprendizaje de los estudiantes se abordan en el aula utilizando estrategias de diferenciación de alto impacto, y también se pueden abordar durante el tiempo de instrucción específica basado en el sitio. ***Nuestro distrito escolar también utilizará los resultados de la prueba CogAT para ayudar a identificar a los estudiantes dotados académicamente para el programa de GATE.***

## ¿Quien es evaluado utilizando CogAT?

- **TODOS** los estudiantes de **TERCER** grado

Si tiene preguntas adicionales, por favor envíe un correo electrónico a la Sra. Waggoner [mwaggoner@mesaschool.org](mailto:mwaggoner@mesaschool.org)
